TFT MONITOR

Professional
23.6" 2434Pw

The new Angelo 23.6" TFT monitor from AOC International (Europe) GmbH captivates customers with an ideal combination of design and technology. Features that also impressed the jurors of the **Red Dot Awards**, who made the AOC 2434Pw a winner in the 2008 Product Design category - success that comes by virtue of its ergonomically shaped oval base with ultra-smooth height adjustment. The look of the display is clean and simple in a modern design.

The monitor is in the highly contemporary 16:9 widescreen format and has generous viewing angles of 170° horizontal / 160° vertical. Height adjustment and tilt function are combined within a single hinge. The screen can be altered in height and tilted backwards to suit the user's individual needs.

PRODUCT DETAILS:

- Analog inputs: HDMI
- 1920 x 1080 maximum resolution
- **Special features:** DCB-Dynamic, Color Boost, Contrast Ratio 60000:1
- 300 cd/m² (typ)
- Typ. Response Time (tr+tf): 2ms

Product specifications subject to change without notice.
